GREETINGS
To Our Customers and Friends

With each succeeding year our business has widened, the natural result not only of our repeated successes in competition and discernment in selecting prize-winning Dahlias, but of the appreciation of our loyal and pleased customers, as evidenced by their substantial patronage.

We appreciate your orders and wish to thank you; also thank those who so kindly recommended us to friends.

We have one of the most up-to-date collections of prize-winning Dahlias grown in America. We are continually buying and importing the best of new varieties and discarding those which do not prove to be first-class in every way, as we wish to have only the world’s best.

Our bulbs are strong and free from disease and we use great care to keep them so. We do not grow green plants, as we believe good, strong bulbs are most satisfactory of all.

We have dozens of varieties Some the very newest which we have not listed, so if you don’t find what you want, write us; we may have them and will be glad to quote you prices.

We guarantee every bulb we sell to be true to name and will gladly replace any mistake; also guarantee them to have a live “eye” or sprout, and if given proper care and planting, we are sure they will grow.

Order early before the supply of many varieties is exhausted, as we fill orders in the order they are received and, unless notified differently, send out all orders between the middle of April and the first part of May.

Cut blooms for sale in season, 50 cents per dozen. Floral designs to order.

Important—When you receive your bulbs put them in a cool place and keep moist until ready to plant out. Don’t let them dry out.

Terms—Cash with order or before shipment. Send money order or bank draft or check; for orders under 50 cents stamps will be accepted.

Orders not held after May 1st unless paid for. Postage prepaid anywhere in the United States.

If you wish the bulbs insured send 5 cents extra. Write your name and address very plainly.

Address all letters, etc., to

LEE’S DAHLIA GARDENS,
5438 South Yakima Avenue,
Tacoma, Wash.
ADAH POMEROY (Cactus) — A beautiful large flower with graceful incurving petals; color a delightful shade of old rose blending to gold at base of petals; reverse of petals tinted with mauve. A Dahlia with good habits and splendid stem._________ $5.00

ALPHONSINE (Cactus) — Good white Cactus varieties are scarce, and we are proud to introduce this one. The bush grows tall and carries a profusion of lovely blooms on long upright stems; perfect form; closed centers. Color white with faint tinge of cream which is deeper at center. Buds when opening tinged with mauve, which turn white as flower opens. A splendid Dahlia and good cut flower._________ 4.00

ALVIN R. (Dec.) — An extra large deep flower with long strong stems which holds its bloom aloft and looks you in the face. The color is a velvety amaranth purple, blending to tyrian rose with halo of deep yellow at base of petals, making a very beautiful flower __________ 5.00

BILLY MORGAN (Peony) — One of the brightest in our garden; color scarlet red blending to deep yellow at base of petals and tipped pure white. Flowers of medium size on good upright stems and very free blooming. Bushes medium height_________ 3.50

CURIOSITY (Cactus Peony) — Large yellow blended with red on outer petals while inner row of petals are pure white; sometimes blooms will come all yellow and red. The bush grows tall and hold the blooms up on long strong upright stems. This has attracted lots of attention in the garden. 1.00

ETHEL CLASS (Dec.) — A medium-size cut flower of salmon rose blending to yellow; petals tipped lightly with gold. Very free blooming on splendid stems_________ 2.00

GLADYS ELEANOR (Hybrid Cactus) — An extra large flower on a perfect stem; a full graceful bloom of clear canary yellow without any shading. We think this the best yellow Hybrid Cactus we have ever grown. Free blooming on medium height bush._________ 5.00

LEHIL (Dec.) — A wonderful autumn color which we find hard to describe and the best we can tell you; it is an apricot orange overlaid with golden iridescent sheen; there is also a flush of old rose, more on the reverse of petals. Each petal has a pin line of gold around the edge. The blooms are very large, graceful and full and carried on long strong wiry stems. A generous bloomer on medium height bush. This beautiful flower has been greatly admired and praised in our garden._________ 4.00

LORETTA (Dec.) — This Dahlia borders on the Hybrid show type and is very large, on stems as stiff as a cane; color apricot yellow with tint of rose overlaid with golden sheen; profuse blooming __________ 3.00
SILVERY MOONLIGHT (Hybrid Cactus) —
Color white with petals edged bright yellow and soft orange; one of the most beautiful we have ever grown. Sometimes blooms come solid yellow. It is a perfect Hybrid Cactus having long narrow, graceful petals, and full closed centers. The blooms are very large and stems are perfect; bush grows medium height and produces blooms with great freedom—— 5.00

VALONA (Peony)—Full fluffy blooms of medium size on good stems; color rose pink blending lighter at tips. A beautiful cut flower and profuse bloomer——— 1.50

ZORITA (Hybrid Show) — Large flower on good long stems; very profuse bloomer. Color apricot buff with reverse of old rose. A beautiful coloring and good dahlia——— 1.00

WORLD’S BEST DAHLIAS
LATEST AND STANDARD VARIETIES

In describing the types of Dahlias listed in these pages, the following abbreviations will be used: Cactus, Cac.; Hybrid Cactus, H. C.; Decorative, Dec.; Peony, P.; Show, Sh.

See Pictures of Types.

Pompon and Collarettes listed in back of Catalogue

ABBBIE E. WILKINS—A hybrid cactus of the true type with a delightfully new and fascinating combination of two colors. The rolled petals are a light flesh with a reverse of light cerise. Large size bloom on good stem ——— 1.00

ALABASTER (Cac.)—Pure white, incurved form, very large and free flowering on good stems ———— 0.75

AMBASSADOR (H. C.) — Soft yellow buff, shaded salmon pink; fine form, very large, perfect stems, excellent keeper and strong grower. One of the best cactus varieties—— 3.00

AMBER GLOW (Cac.) — A bright yellow, deepening to pale orange at the center. The petals are long, narrow and straight. An exhibition and cut-flower variety——— 1.50

ARCTIC (P.)—Pure white; most perfect in form, immense size; nine inches or more in width, yet fluffy and graceful, very long and strong stems holding the flower well above the foliage——— 0.75

ATALA (P.)—Cream color, shading deeper in the center. The large flowers are erect on long, rigid stems, with long, narrow reflexing petals, resembles a Chrysanthemum—— 0.50

BALLEY GIRL (Cac.) — An attractive new California Dahlia of very odd coloring. An extra large, deep flower, made up of a mass of narrow incurved petals, which are pure orange, white with orange base and various combinations of these colors on same bush. Free flowering; stems fair——— 1.50

BESSIE BOSTON (Dec.) — Deep cardinal red with split petals; very strong erect stems—— 0.50

BETTY AUSTIN (H. C.) — The color is yellow at base of petal, blending to carmine and rose; a good medium-size flower on a good upright stem. A beautiful cut flower——— 1.50

BILLIE BURKE (Dec.) — A free flowering, soft yellow of large size, on good stems—— 0.50
BLACK DIAMOND (Sh.) — Large flowers of deep maroon, nearly black; fine for cutting or garden decoration; good stems ........... .50

BONNIE G. (American Cac.) — Pure, soft pink. Strong grower, producing its large blooms well above foliage in great profusion. With all lovers of pink dahlias, this wonderful new variety is bound to be a great favorite ........................................ 2.00

BORDER KING (Cac.) — Large scarlet on good stem and very free blooming ............. .75

CALIFORNIA ENCHANTRESS (H. C.) — Large, blooms of great substance and of a delightful shade of pale pink. Erect stems and a very profuse bloomer. Perfectly formed ______________________________________ 1.00

CARMENCITA (Dec.) — Clear yellow, distinctly penciled with bright scarlet. Very beautifully formed flower of immense size. Fine stems and a kood keeper; compact habit and free bloomer __________________________ 1.00

CARRIE MENZEL (Lee) (P.) — One of our 1924 introductions. A beautiful soft salmon pink with an apricot sheen. Flowers are large and upright on extra long strong stems; very profuse blooming and one of the best for cutting, as it is a splendid keeper __________________________________________ 1.00

1—Carrie Menzel. 2—Centralia. 3—Celia E. Harris. 4—Puyallup.

CELIA E. HARRIS (Lee) (H. C.) — Our 1924 introduction that won for us the silver cup for best pink H. C. or Dec. at Western Washington Fair, 1923, with many other splendid varieties in competition. A perfectly formed Hybrid Cactus and a beautiful shade of bright pink, having a slight tinge of mauve. The blooms are very large
and full and the stems are perfect. An extra good dahlia in every way. 

CENTRALIA (Lee) (Dec.)—Another of our 1924 introductions. Very large flower on extra long, strong stems, 24 inches and more in length. A splendid keeper as a cut flower. Color dark crimson, blending to American Beauty red.

CHAMPAGNE (Dec.)—One of the largest dahlias grown. Color is rare and delightful, stem is strong and holds the massive flower absolutely upright and the bushes are plentiful producers of blooms. Coloring is a dull golden champagne, varying to chamois.

CHANSON (P.)—The color is deep lilac with a bluish sheen. A large full flower on a splendid stem.

CLAIRE KULP (H. C.)—Very rich cardinal red shaded with garnet and bright yellow at base of petals, which sets off the red most effectively. A very beautiful flower on splendid strong stems.

CIGARETTE (H. C.)—A new California hybrid cactus more vividly colored than Ballet Girl, and we believe equally as good in its class. Best described as creamy white, heavily edged orange, but no two flowers are exactly alike. Bloom is large and of good substance. Stems are of the best quality. Good for all purposes. Very much in demand during the garden season and every visitor commented on its beauty and oddity.

CITY OF PORTLAND (P.)—One of the grandest new peony. The blooms are often 8 and 9 inches in diameter of very artistic form. Color is a clear, rich, deep yellow. An ideal cut flower, having long, strong stems and good keeping qualities. Strong, vigorous growing plants produce flowers freely.

CONQUEST (Cac.)—Large crimson maroon; strong stems and very good.

CORAL (Cac.)—A large flower of deep coral pink; petals very full and incurved; has splendid stems.

CREATION (P.)—Large full flowers of good substance, held well up on strong stiff stems. A beautiful flower, shading lighter as the blooms become full.

DADDY BUTLER (H. C.)—The color is of the American Beauty rose shades, or rosy carmine. The reverse of the petals is a lighter tint, giving a variation of color. We know of no other dahlia like it. Stem is perfect and we never grew a dahlia which was a heavier producer of blossoms from the start to the finish of the season. We all know there are perhaps six dahlias which will last a week when cut, and this is one of them.

DAKOTA (Dec.)—An eastern Dahlia of splendid merit. Flame color; very large flower on perfect stem; vigorous grower; splendid for garden or exhibition.
DOROTHY DURNBAUGH (Cac.) — Immense rose-pink flowers on strong stems; fine for cutting .................................................. .75

DOROTHY ROBBINS (Dec.) — One of the finest of the autumn shades; large blooms of deep buff suffused with orange; splendid stems ................................................................. .75

DREAM (Dec.) — Conspicuous salmon shade with amber-like glow. Flower of supreme beauty and perfect form. Long strong stems .................................................................................. .50

DREER'S YELLOW (Sh.) — Quilled; often 7 inches across strong stems; clear yellow. .50

DR. H. TEVIS (Dec.) — Odd shade of old rose, suffused with gold and shaded apricot. An immense flower, erect on long, stout stem. Will sometimes sport single blooms ............................................................................. .75

EARLE WILLIAMS (Dec.) — This is a new giant flowering Dahlia; we having grown it as large as 12 inches in diameter. The colors of brilliant crimson and white are well distributed. Plants are very fine in bloom. This is one of the finest and most attractive Dahlias ever introduced. Strong stems .................................................................................. .2.50

EDITH CARTER (Cac.) — Yellow, heavily tipped bright carmine; very erect habit and stems; much admired .......................................................... .50

EDITH CAVELL (P.) — Very large full flower, old gold shaded reddish bronze; long, strong stem .................................................................................. 1.00

ELSIE DREXLER (H. C.) — A deep velvety maroon bloom of huge size, on splendid long strong stems .................................................................................. .2.00

ELIZABETH BOSTON (P.) — The best and biggest peony of its coloring that has so far been produced. Enormous blooms of deep crimson, shading to old gold at the tips, and will hold its color the entire season. The center is surrounded with tiny, curly petals which make this introduction perfect of its type. Stems are exceedingly long and cane-like. Tall growing and very floriferous .................................................................................. 3.00

EL GRANADA (H. C.) — A new California Dahlia that is a prize winner. An extra large vivid orange bloom, and the petals twist and interlace, showing at the tips a creamy yellow reverse. A Dahlia with splendid habits and perfect stems. Net ................................................... 10.00

ENCHANTRESS (Holland Dec.) — Color a silvery pink, being absolutely free from any lavender tint; long, narrow, graceful, wavy petals. A very dainty flower of medium size on long strong stems .................................................................................. 2.00

ETHEL (Cac.) — Large incurved. Soft pink blended to white center; good stems .................................................................................. .50

ETHEL BURNHAM (H. C.) — Color is a lovely shade of deep old rose; a profuse bloomer. Flowers are very large; stems fair. .1.00

EXMOUTH GLORY (Dec.) — Large, yellow and orange, tipped deep with white; a beautiful flower; some blooms come solid color white or orange; needs some disbudding, as it is inclined to grow bushy; stems are good .................................................................................. .50
FRANCES GRAYHAM (H. C.)—Very large; beautiful gold shading deep salmon rose on good stem.-----------------------------.50

FRAU G. SCHIEFF (Dec.)—Beautiful blending of chamoise and orange yellow, with reverse of coral red; perfect stems.------------- .75

FUTURITY (Dec.)—Color salmon rose, similar to Lyon rose; very large on strong stem .75

F. W. FELLOWS (Cac.)—Very large; bright orange; long narrow petals; good stems. .75

GARDEN GLO (P.)—An extra large full flower of rich bright velvet scarlet on long strong stem ____________________________ .75

GEE WHIZ (H. C.)—Very large; soft buff shaded with salmon. An extra good flower on good stems.________________________ 2.00

GEO. W. GERó (Sh.)—A lovely large bright pink, perfectly quilled on extra good stems .50

GEO. L. STILLMAN (H. C.)—Very large velvety light maroon, with long stems. .1.00

GEORGE WALTERS (H. C.)—One of the largest and best varieties to date. Salmon pink suffused with gold in the center; is a wonderful bloomer with long, stout stems. Will always be a leader and in great demand ____________________________.75

GEO. E. WRIGHT (Dec.)—A new large decorative of beautiful glowing salmon with golden sheen; reverse of petals tinted mauve. Perfect form and has splendid stems ________________ .75

GLADYS BATES (American Cac.)—Immense, heavy blooms of soft tan color, tinted with rose. Perfect stems and a profuse bloomer 1.50

GLORY DE LYON (Sh.)—Large pure white; round as a ball; strong stems. _________ .25

GLORY OF NYKERK (P.)—Large purple shaded maroon; full flower; on good stem .50

GLORY OF NEW HAVEN (Dec.)—A soft pinkish mauve, a color quite distinctive and beautiful. Long stemmed, large blooms; excellent for cutting ______________________ 1.00

GLORY OF PARIS (Sh.)—Extra large purple flower on strong stem; very showy__________ 1.00

GODFREY'S CRIMSON (Dec.)—Large rich velvety crimson with darker shading, very free blooming on good stems; a beauty _________ .75

GOLD MEDAL (Sh.)—Deep canary yellow striped and tipped red; very free blooming on good stems _____________________________ .50

GOLD QUEEN (Cac.)—Rich deep yellow, profuse bloomer, on good wiry stem. __________ .35

GOLDEN WEST (H. C.)—Without doubt one of the very finest Hybrid Cactus. The large blooms are held erect on strong long stems; bright orange-buff color; a leading cut-flower ____________________________ .50

GOLDEN WEST (Sh.)—Large; light yellow; notched petals; good stems _________ _______.35

GORGEOUS (P.)—This is a wonderful dahlia because it has tremendous size, great depth, stiff long stems, and will bloom freely throughout the season. Late blossoms will be as large and good as the early ones. The color is yellow, shading to bright scarlet ____________________________ 2.50
GRAND DUCHESS MARIE (Sh.) — Large, soft buff overlaid with orange, reverse shaded pink. 

GRAND BLOOD (Dec.) — Deep mauve or lilac, distinct form and large size, fine for cutting; good stems. 

HELEN DURNBAUGH (H. C.) — Immense flowers of delicate blush, deepening at the center; this will become a great favorite; stems good. 

H. G. GILL (P.) — Golden yellow, reverse tinted bronze; very large on long stems. 

HUGH McNEAL (Cac.) — Lovely shade of lavender pink, very fine for cutting; good stems. 

H. W. WALKER (H. C.) — One of our own introductions; large; bright yellow; free blooming; fine stem. 

INSULINDE (Holland Decorative) — One of the most wonderful yet introduced; extra large flower with broad, wavy petals and long, strong stems; brilliant golden orange color. 

IVOIRE (P.) — The waxy petals of great substance are long and pointed and curl and twist in such a manner as to almost cover the center; color is clear, glistening ivory, deepening to cream at base of petals and has a faint glow of buttercup yellow at center; an extra large beautiful flower on strong 18-inch stem. 

JANE SELBY (Dec.) — Delicate mauve pink, of immense size and true decorative formation; fine for cutting and exhibiting; good stem. 

J. M. GOODRICH (Dec.) — Large flowers on long, upright stems; beautiful salmon pink, tipped yellow. 

JONKHEER BOREEL (Holland Dec.) — An elegant large flower of bronzy buff-yellow color; a clear and most beautiful shade. Strong, upright grower and long stout erect stem. 

JUDGE ALTON B. PARKER (Eastern Dec.) — Bronzey golden buff; flowers are large, splendid form; stems good. 

JUDGE MAREAN (Eastern Dec.) — A large flower of perfect type; color is a combination of salmon pink, red, orange, yellow and gold; free blooming, on long, strong stems. 

J. W. LEE (Lee) (H. C.) — One of our own 1924 introductions. This is a magnificent dahlia of very large size. A strong grower, and profuse bloomer. The large, full, graceful blooms are held erect on good, strong stems. We find it hard to describe the color to do it justice. But as near as we can tell you, it is a blending of scarlet on pale orange yellow, giving the flower the beautiful sunset shades. Having a distinct halo of yellow at center, much admired by all visitors to the gardens, and a dahlia that should be in every collection. 

Notice — Please give a few second choice in your order in case we should not be able to supply first choice, as we do not substitute unless notified to do so.
HYBRID CACTUS DAHLIA, J. W. LEE

KALIF (H. C.)—Very large Hybrid Cactus; pure scarlet; extra strong stems ________ .75

KING OF SHOWS (Sh.)—Deep butter yellow of a solid color throughout. Every petal is most perfectly quilled and uniquely formed. A mammoth flower, on long stems ________ .75

LADY BETTY (Dec.)—This beautiful new dahlia is an extra large finely formed flower, produced freely all season on long, stiff, erect stems. A lovely creamy white artistically suffused with pink, reminding one of a bush of pale pink Peonies in full bloom .75

LA FAVORITA (Hybrid Cactus)—Grand new dahlia of distinct coloring. Beautiful brilliant salmon, shading darker in the center and lighter at tips. Of perfect form and carried erect on extra strong stems; ideal cut-flower ____________________________ .75

LA GROSS BETTE (Dec.)—One of the man-rean dahlias; a deep cerise; large size on splendid stems ___________________________ 1.00

LA MASCOTTE (Dec.)—A new California dahlia that is grand. Immense flowers of a very distinct color, silvery white with light violet reverse. Myriads of blooms held erect on excellent stems ___________________________ 2.00

LE GRAND MANITOU (Dec.)—Large blooms; striped and spotted purple and white; strong stems __________________________ 6.35

LIBERTY (P.)—Very large; salmon scarlet; on long, strong stem; a beauty __________________________ 5.00

MABEL (Dec.)—Beautiful, delicate shade of mauve. Finest upright habit, flowering very freely and erect with extra fine stems.
One of the best and most popular cut flowers

**MAD. LA BRUN (Cac.)**—Best purple cactus; very large incurving petals and good stems **.35**

**MADONNA (The Bride) (H. C.)**—Silvery white flowers often eight inches across with wavy and slightly reflexed petals, which is unusual and very attractive. Excellent upright, free flowering habit, having long stems with blooms perfectly erect **.50**

**MARCELLA GILL (Dec.)**—A delightful clear soft pink, variety that is bound to become a great favorite with everyone, especially florists. A wonderfully free bloomer on long, individual stems, that hold the blooms rigidly erect. Very perfectly formed and is second to none in keeping qualities when cut **.60**

**MARY C. BURNS (‘Dec.)**—A dahlia of unique coloring. The outside of the petals are old gold and the reverse a dull red, forming a beautiful combination of gold and red. Large flowers and good stems **1.00**

**MARY PERRIER (Cac.)**—Large crimson scarlet on strong, erect stems **.50**

**MELODY (Cac.)**—Large; clear yellow tipped white; incurved petals; sometimes blooms all yellow **.50**

**METEOR (Sh.)**—Bright ruby red, large size on good stems **.25**

**MEYERBEER (P.)**—Dark crimson, suffused purple; one of the largest Peonies grown; strong stems **.75**

**MIGNON (H. C.)**—Delicate lavender pink changing to creamy white in center. Large upright flowers of a hybrid cactus type. Very free blooming **.50**

**MINA BURGLE (Dec.)**—Pure deep scarlet; large on good stems and free blooming **.35**

DECORATIVE DAHLIA—MILLIONAIRE

MILLIONAIRE (Dec.)—One of the largest dahlias in existence, with short stout stems. Color is light lavender, shading to white in center.  

MODEL (Cac.)—Yellow ground, shading to lovely pink, tipped yellow; beautiful incurved form and fine stems.  

MRS. ALFRED HARVEY (Cac.) — A large gracefully incurved flower of an odd light salmon pink shade, an extra fine new English variety with good stems and habits.  

MRS. CARL SALBACH (Dec.)—Immense blooms of a lavender pink color, on exceptionally strong stems, a perfect exhibition and cut-flower variety; one of the best  

MRS. C. COOPER (Cac.)—Cream, suffused salmon; very large; stems fairly good.  

MRS. EDNA SPENCER (Cac.)—A novelty of a delicate and exquisite shade of lavender or orchid pink. In much demand, as it is a lasting cut-flower, profuse bloomer on good stems.  

MRS. ETHEL F. T. SMITH (H. C.)—Creamy white Hybrid Cactus shading to a lemon tint in the center. This is one of the largest dahlias I have grown; it is a profuse bloomer, and the flowers are held far above the foliage on strong stems. Won the first prize at Oakland, Cal., for largest flower in show.  

MRS. GEO. W. EKINS, JR. (Dec.)—An extra large fine flower; color, old gold, suffused salmon pink, with faint reflex of rosy pink; stems fair.
MRS. L. VER WARNER (Dec.)—A charming deep mauve pink or cattleya (orchid) color. Extra strong grower, producing its gigantic blossoms freely and rigidly erect on long, cane-like stems. Was the center of attraction in our show garden and wherever exhibited ........................................... 2.00

MRS. JOHN T. SCHEEPERS (Dec.)—An Eastern dahlia of good habits, very large flower, standing well out of the foliage on strong stems; center clear canary yellow, gradually changing to a delicate shade of pink; suffusion on outer petals ———— 5.00

MRS. LANSDALE (Cac.)—Yellow ground color, suffused and tipped deep rose; strong stems ............................................................ 5.00

MRS. W. E. ESTES (H.C.)—Best and largest white Hybrid Cactus Dahlia we have ever seen. Blooms profusely on long stiff stems 1.00

NAID (P.)—Color a cream buff with a tint of pink; grown under artificial light; an excellent cutting variety; splendid stems ———— 1.00

PELLIE SLOCOMBE (Cac.)—Pale Persian lilac-pink, a beautiful cut flower and profuse bloomer, on good stems ———— 1.00

PATRICK O'MARA (Dec.)—Awarded the American Dahlia Society's Gold Medal for best variety in 1920. The color is an unusually soft and pleasing shade of orange-buff. The immense flowers are borne on long, strong stems, held rigidly erect. One of the most lasting cut-flower dahlias ever introduced ........................................... 1.00

PATRIOT (Cac.)—Glorious bright scarlet flowers of most perfect cactus forms, produced in great profusion; fine stout stems; admirable for cutting ———— 1.00

PAUL MICHAEL (Dec.)—One of the largest Dahlias grown; a beautiful old gold with bronze shading; stems are fair; bushes are always loaded with blooms ———— 1.00

PIERRE LE BLOUD (Dec.)—Dark red at base, distinctly tipped white; large flower on good stem ———— 1.00

POLAR BEAR (Dec.)—Immense pure white blooms which are held on long straight stems, are of great depth. The habit of this variety is all that can be desired and the bushes are continually loaded with bloom. Its keeping qualities are of the best, which makes this flower one of the best for florists' use ———— 1.00

POLAR STAR (P.)—The purest white dahlia of remarkable beauty. Flower is large and full and carried on 18-inch stems. For a white dahlia it is unsurpassed both in appearance and free blooming ———— 1.00

PRIDE OF CALIFORNIA (Dec.)—This is the best red decorative for all purposes. It has size, stem and splendid keeping qualities when cut. We can cheerfully recommend this Californian ———— 1.00

PROMETHEUS (H. C.)—A new Eastern dahlia which does well in the hot climates; a deep rosy salmon on good stems; a good
keeper when cut ___________________ 2.00

**PUYALLUP (Lee) (P.)**—One of our own introductions; large, full flowers on splendid stems; color is a crimson pink blending to white at center and having pin lines of white running through each petal; very attractive ___________________ .75

**QUEEN ESTHER (P.)**—Stillman's Indian family; Du Barry—that dazzling new shade of red; very large full flower ________________ .75

**RADEN KARTINI (Holland Dec.)**—Salmon shade with lilac and mauve; large flower on strong upright stems; free blooming__________________ .50

**RHEINISCHER FROHSINN (Cac.)**—A most distinct and refined variety. The flowers are large, of splendid form; the long incurving petals are white at base, but at about one-half their length they become suffused with and change to a luminous carmine-rose, the two colors combining harmoniously in forming a most attractive flower on good stems ________________ .50

**RIVERSIDE (Dec.)**—Pinkish mauve blending to cream at center. A large flower on good stems; sometimes shows open center _______ .50

**ROSEMAWR (Dec.)**—Soft rose pink; very large, on long straight stems; sometimes take peony form ___________________ .75

**SCOTTISH CHIEF (Dec.)**—Fine flower of a new and unusual shade of golden cocoa or an amber coloring; sometimes the blossoms are tipped with white deepening into pink; stems long and strong_____________________.75

**SEAHORSE (H. C.)**—English novelty of Hybrid Cactus type. Color golden-yellow with pure white tips which extend half way down the petals. One of the most attractive grown ______________________ .75

**SENORITA (Dec.)**—One of the largest dahlias grown; a rich dark red, with good stems; a new one that will be a favorite________________ .250

**SEQUOIA GIGANTEA (Dec.)**—The largest deep yellow decorative dahlia to date; noted for its vigor, productiveness and all the other fine qualities ____________________ 1.00

**SHUDOW’S LAVENDER (Dec.)**—The best lavender decorative to date; very large flowers on long, stout stems; a beauty_________ 4.00

**SILVERHILL PARK (English Cac.)**—It is massive in size, beautifully incurred in form and with perfect center; color is a glistening white; the plants are strong and stems are good _____________________ 2.00

**SOLDIER BOY (P.)**—A new Oregon peony that is distinctly different; large flower of khaki color with reverse of petals a deep rose; profuse bloomer, stems not very upright_____________________ 1.25

**SOLDIER’S LASS (Cac.)**—Brilliant red tipped white, very showy, on good stem; a beauty __________________________ .50

**SOUTH PORT PRIDE (Dec.)**—A new Eastern dahlia that won certificate of merit at American Dahlia Society’s trial gardens, also at California trial gardens; a splendid new variety; color primrose yellow deepening at center to canary yellow and ends of petals flushed with lavender; a very large
flower on a perfect stem ........................................ 7.50

ST. ELIAS (Cac.)—This is a pure white cactus dahlia with slightly incurved, claw-shaped petals. Flowers are large and produced freely on fine stems. High recommended ............................................. .75

ST. LEONARD'S (English Cactus)—Color at base and half the length of petals is a beautiful shade of yellow, balance of petals and tips is a bright scarlet; flowers stand boldly erect and are very hardy, being the last to be cut down by frost ................................. .50

SULPHUREA H. C.)—Clear sulphur yellow, with narrow folded petals; very large, on strong stems; very early and free bloomer .............................................. .75

SUNSHINE (Dec.)—The most brilliant scarlet, faintly tipped yellow. Soft, exquisite formation, splendid large exhibition variety and striking in the garden. Good stems ................................................................. 1.00

SURPRISE (H. C.)—Rich orange amber, bright yellow center, fine habit and good stems .......................................................... .50

SUZANNE CAYEUX (Cac.)—Beautiful large creamy white; free blooming; on good stems .................................................. .50

PEONY FLOWERED—SWEETHEARTS' BOUQUET

Vivid—Very bright red.
Virida Flora—The green dahlia. The most unique novelty of dahlia culture. The flower is a rich verdant green, same shade as the foliage. 50c.
Zoe—Yellow and white; sometimes solid white or yellow.
The soil should be thoroughly cultivated and well pulverized; then dig a good size hole and put in a shovel full of well rotted manure and work it up well with the soil; then cover with a little soil and lay bulb flat down with “eye” or sprout on top side, cover with 1½ inches of soil. After dahlia is up gradually fill up hole so that when soil is level the bulb will be covered 4 to 6 inches deep.

In planting in rows put 2½ to 3 feet apart. Except Pompons, which can be planted 1½ to 2 feet apart.

Cultivation is most important. Keep them free from weeds and never allow the soil to crust. When you give them water, do it thoroughly and about once or twice a week.

For exhibition flowers, leave one stalk to bulb and tie it to stake set well in ground. When about 18 inches to two feet high, if they appear too bushy, trim out every other branch and when budded, where there are three or more buds, remove all but center bud. An application of manure, either in liquid or ordinary form several times throughout the blooming season is very beneficial in raising large flowers.

When frost kills the tops, cut them off and lift bulbs very carefully and store in some dry place that is sure frost proof. Do not divide clumps till April, when you can see the “eyes” or sprouts and be sure to cut each bulb with a good “eye.”

Plant only one bulb in hill and remember that a tuber as small as a peanut, with a good live “eye,” is as good or better than a very large one.

Important—When you receive your bulbs put them in a cool place and keep moist until ready to plant out. Don’t let them dry out.
